RE: Notification of Intent to Close
Sibley Generating Station Fly Ash Impoundment (also known as Fly Ash Pond)
Evergy Missouri West, Inc. (f/k/a KCP&L Greater Missouri Operations Company)

To Whom it May Concern:

Pursuant to 40 CFR 257.102(g) of the Coal Combustion Residuals (CCR) Rule, this will serve as notification of the Evergy Missouri West, Inc. (f/k/a KCP&L Greater Missouri Operations Company) intent to close the Fly Ash Impoundment at the Sibley Generating Station. The unit will be closed by removal of material in accordance with the current closure plan titled "*CCR Closure Plan, Sibley Fly Ash Impoundment, Sibley Generating Station*", dated October 14, 2016, and/or any subsequent revisions, developed pursuant to 40 CFR 257.102(b). Evergy considers closure to be initiated under the CCR Rule as of the date of this notification.

Sincerely,

A handwritten signature in black ink that reads "Jared Morrison". The signature is written in a cursive style.

Jared Morrison
Sr. Manager, Water and Waste Programs
Evergy
