

IMPROVEMENTS COMING SOON

Transmission Line Upgrades in Arkansas City

The project is scheduled to take place between **LATE MAY 2020 THROUGH DECEMBER 2020**

Visit evergy.com/arkcity to learn more

THE NEW TRANSMISSION LINE PROVIDES:

Enhanced reliability: Steel poles can withstand harsher weather conditions.

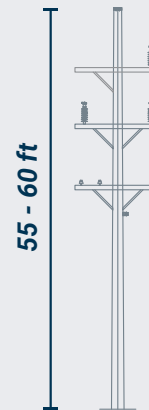

Safety improvements: Raising the line increases safety for local businesses and residents.

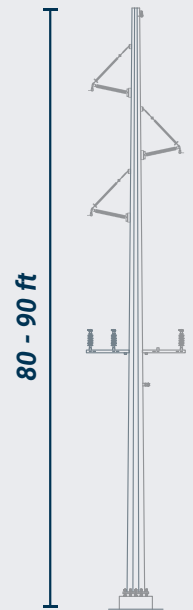

Hike-bike trail: A new walking and cycling trail will run along the transmission line connecting Cowley College campus to the Tiger baseball field.

NEW TRANSMISSION LINE

Current wooden poles built in the 1940s

New steel poles are **SAFER** and **MORE RELIABLE**

TRANSMISSION LINE

Expanding the Hike-Bike Trail is great for our community. We're happy for the opportunity to work with Evergy to assist with the trail, while they are also investing in our community to ensure safe, reliable electricity.

—Mayor Karen Welch, Arkansas City
